

CITY OF GENESEE NEWSLETTER

JULY

2023

IT'S HERE!!!

After many months, if not years, we can finally say we have a new well online. **Well #8** is pumping out over 500 gallons per minute and all tests have come back with very low numbers for contaminants, including Nitrate, that is almost undetectable. We are going to run this well as our primary source for the near future to give us both a good idea of what it can produce and also give our other well time to recover and replenish its water level.

We as citizens, still need to be smart with not only how we use our water but how much we are using. At this time, there are no restrictions on water usage, but it is a precious resource that we need to protect so please use it wisely 😊

The City would like to remind residents to keep their GRASS MOWED and WEEDS SPRAYED AND MAINTAINED! *Thank you!*

The city has had several complaints about barking dogs and wandering dogs. Please keep your dogs on your property and be respectful of your neighbors. Thank you!

PLEASE DO NOT PUT PLASTIC BAGS IN THE COMPOST BINS! The bins are emptied Monday, Wednesday and Friday. If they are full, please check back.

DID YOU KNOW?
