NEW BUSINESS:

Latah County & Sunshine Disposal meet & greet-Amanda explained the garbage cart exchange is still in private negotiations so not sure if residents will keep their current carts or if they will be re-labeled with the new company. All dumpsters will be changed out. Service days will remain the same. Sunshine is looking to hire local employees and plan to retain the employees that wish to stay. Residents will have to contact Sunshine for any complaints, new carts, etc. Bulky waste and extra bag costs will stay the same, but the cart and dumpster costs will go up with the new contract. They would like to store equipment out at the bulky waste site to make it easier to swap out dumpsters and carts. Recycle bins will be revamped to keep water and household garbage out.

Sunshine Disposal's corporate office is located in Spokane. They specialize in rural and small areas. If we get feedback from customers or concerns, they are willing to help and want to make this a smooth transition for everyone.
