

## Sunshine Disposal & Recycling

Sunshine Disposal & Recycling is working to resolve the service issues many of you have been experiencing in our first three and a half months of the contract. We met with the Latah County Board of Commissioners on Tuesday to acknowledge our shortcomings and discuss a plan of action. During our discussion with the Commissioners, it became apparent Sunshine Disposal & Recycling was not communicating with the public in an effective manner. We are addressing this issue by adding our email address to the Latah County website, identifying, and using local Facebook sites for notifications and adding phone numbers to our route sheets. Having phone numbers available on the route sheets will allow us to notify customers of any issues in real time much like the School District does for school closures. Contact Sunshine disposal at (208) 743-4075, (833) 248-4305 or email [service@sunshinedisposal.com](mailto:service@sunshinedisposal.com).

We apologize for any inconvenience we may have caused.
